PIMOVET PLUS 5

Pimobendan 5 mg, Co-enzyme Q10 10mg Tablet

- ▶ Inodilator Action – Pimobendan enhances myocardial contractility and causes vasodilation by sensitizing cardiac troponin C to calcium and inhibiting phosphodiesterase III.
- ▶ Boosts Cellular Energy – Co-enzyme Q10 Improves cardiac muscle energy output, and reduces oxidative stress.
- ▶ Improves Quality of Life – Enhances exercise tolerance, reduces symptoms of CHF, and extends survival in dogs with DCM or MMVD.
- ▶ Dual Mechanism Cardiac Therapy – Combines mechanical efficiency with antioxidant support for comprehensive heart care.

Indications

- Congestive Heart Failure (CHF)
- Dilated Cardiomyopathy
- Myxomatous Mitral Valve Disease
- Myocardial insufficiency
- Post-surgical cardiac support
- Chronic fatigue syndrome

PMVT

Stronger Heart, Longer Life.

TANSAR

Telmisartan 10mg Solution

Telmisartan improves cardiac function by:

- Reducing systemic vascular resistance
- Lowering preload and afterload
- Protecting end organs (heart, kidneys) from hypertensive damage

- ▶ Advanced ARB Therapy for Animals – Contains Telmisartan, a selective Angiotensin II Receptor Blocker (ARB) for effective blood pressure and proteinuria control.
- ▶ Kidney Protective Action – Helps reduce protein loss in urine and slows CKD progression in dogs and cats.
- ▶ Well-Tolerated Aqueous Formula – Non-oily, palatable, and easy to administer orally, ensuring better compliance.
- ▶ Supports Cardiovascular & Renal Health – Especially beneficial in hypertensive nephropathy, glomerulonephritis, or early-stage CKD.

Indications

- Chronic Kidney Disease (CKD)
- Proteinuria in dogs & cats
- Systemic Hypertension
- Glomerular diseases

TNSR

From Pressure to Protection - All in One Dose

BENAZACTONE-80

Spironolactone 80 mg+ Benazepril 10 mg Tablet

Dual Action in CHF Management

- **Benazepril** → ACE inhibitor → Vasodilation, BP reduction, kidney protection
- **Spironolactone** → Aldosterone blocker → Prevents fluid retention & cardiac remodelling

Synergistic Effect → Reduces preload & afterload, improves cardiac output, slows CHF progression

Indications

- Congestive Heart Failure (CHF) in dogs
- Chronic Heart Valve Disease (MMVD)
- Dilated Cardiomyopathy
- Hypertension & fluid retention

Evidence-based : 26% reduced risk of CHF worsening (BESST trial)

BZCT

Because Every Dog Deserves a Healthier Heart

Digest Better, Live Healthier with...

ENZYVET FORTE

Lipase 9,000 Units + Protease 57,000 Units + Amylase 64,000 Units Tablet

Triple Enzyme Digestive Support

- Lipase: Breaks down dietary fats into absorbable fatty acids
- Protease: Aids in protein digestion and absorption
- Amylase: Helps digest carbohydrates efficiently

Ideal for Exocrine Pancreatic Insufficiency (EPI)

- Replaces missing enzymes in dogs & cats with pancreatic dysfunction
- Improves digestion, nutrient absorption, and stool consistency

Boosts Appetite & Weight Gain

- Enhances nutrient utilization in underweight, malnourished, or recovering animals

Reduces Gastrointestinal Distress

- Helps control bloating, gas, and foul-smelling stools caused by poor digestion

Recommended for

- EPI (Exocrine Pancreatic Insufficiency)
- Chronic pancreatitis
- Digestive enzyme deficiency
- Post-antibiotic gut recovery

No More Tummy Troubles!

VETPRAZOLE

Pantoprazole 20 mg Gastro Resistant Tablet

- ▶ Pantoprazole is a Proton Pump Inhibitor (PPI)
- ▶ Reduces acid secretion at the source—the proton pumps in stomach lining
- ▶ Allows ulcer healing, reduces acid-related irritation

Indications

- Gastric Ulcers
- Gastroesophageal Reflux (GERD)
- NSAID-induced gastritis
- Chronic vomiting with acid reflux
- Post-surgery GI protection

Safe, Fast & Vet-Approved Acid Control

The Trusted Bile Acid Modulator for Vets..

UDCAVET PLUS

Ursodeoxycholic Acid 300 mg Tablet

Liver Support & Bile Flow Modulator

Enhances bile flow and liver detoxification

Protects liver cells from further damage

Reduces bile viscosity and gallstone risk

Improves liver enzyme levels over time

Indications

- Cholestatic Liver Diseases
- Gallbladder Sludge / Mucocele
- Idiopathic Liver Enzyme Elevation
- Hepatobiliary Disorders in Dogs & Cats
- Steroid-Associated Liver Stress

UDVT

The Bile-Friendly Liver Shield.

VETOSYL PLUS MEDIUM

S-adenosyl Methionine 225mg, Silybin Phospholipid Complex Eq.to Silybin (A+B) 24mg Tablet

Liver Support Formula

- ▶ Supports liver detoxification & enhances glutathione production
- ▶ Enhances hepatic recovery and reduces oxidative stress
- ▶ Helps reduce elevated liver enzymes (ALT, AST, ALP) over time
- ▶ Support neurological health by boosting neurotransmitters
- ▶ Improves cognitive function in hepatic encephalopathy-related issues

Indications

- Hepatitis
- Cholangiohepatitis
- Cirrhosis
- Hepatic lipidosis (especially in cats)
- Toxin-induced liver damage

VTSL

Dual Action of Hepato-Protection

VETARMOR-MEDIUM

Fluralaner 500 mg Tablets

- ▶ 12 Weeks Protection – Single dose lasts up to 3 months
- ▶ Fast Acting – Kills fleas in 2 hours, ticks in 4–8 hours
- ▶ Prevents Re-infestation – Breaks flea life cycle
- ▶ No Mess - Oral tablet, no smell or sticky residue
- ▶ Controls FAD - Reduces Flea Allergy Dermatitis symptoms
- ▶ Kills Multiple Ticks - Ixodes, Rhipicephalus, Dermacentor & more
- ▶ Improved Compliance - Fewer doses needed per year
- ▶ Safe & Palatable - Well-tolerated in most dogs over 6 months

Indications

- Flea Infestations
- Tick Infestations
- Tick-Borne Diseases
- Ectoparasite control

Also Available

VETARMOR-SMALL
Fluralaner 250 mg Tablets

Also Available

VETARMOR-LARGE
Fluralaner 1000 mg Tablets

VTRM

Tick it Off, Flea it Out, Stay Bite-Free.

CLEARCOAT

Ethyl Lactate 10% w/v Shampoo

- ▶ Penetrates hair follicles → breaks down lipids & oils
- ▶ Reduces bacterial & yeast overgrowth
- ▶ Keratolytic & degreasing effect → cleanses skin thoroughly
- ▶ Improves topical penetration of other therapies

Indications

- Bacterial dermatitis (pyoderma)
- Seborrheic conditions (oily/greasy coat, scaling)
- Fungal overgrowth (Malassezia dermatitis)
- Supportive in recurrent skin infections

200 ml

CRCT

Deep Clean, Healthy Sheen

Target the Parasite, Protect the Pet with...

ATOCIA

Atovaquone 750 mg Suspension

High-Potency Antiprotozoal Agent

Effective against Babesia, Toxoplasma, and Cytauxzoon infections in dogs and cats

Targeted Mitochondrial Action

Inhibits protozoal mitochondrial electron transport-selective & potent activity

Alternative to Imidocarb

Ideal for cases unresponsive or intolerant to conventional anti-parasitic treatments

Well-Tolerated Oral Liquid Form

Palatable, easy-to-administer solution suitable even for small breeds and kittens

Often Used in Combination

Commonly paired with Azithromycin for synergistic treatment of canine babesiosis and feline cytauxzoonosis

Rapid Symptom Control

Helps restore appetite, reduce fever, and improve energy levels within a few days

Indications

- Canine Babesiosis
- Feline Cytauxzoonosis
- Tick-borne hemoprotozoal infections

Liquid Power Against Tick-Borne Threat

Quick Comfort for Itchy Paws and Angry Skin with....

HYDROCIA

Hydrocortisone 0.5% w/w Spray

Anti-Inflammatory Action

- Rapidly reduces inflammation, redness, and itching.

Topical Corticosteroid for Sensitive Areas

- Safe concentration (0.5%) suitable for frequent use on sensitive skin regions.

FG-TP Formulation Advantage

- FG (Fast-Glide): Ensures quick absorption without leaving greasy residue.
- TP (Targeted Penetration): Designed to deliver active ingredients deep into the skin layers for enhanced efficacy.

Non-Stinging, Alcohol-Free Base

- No alcohol or harsh chemicals—minimizes risk of burning or discomfort.

Easy Spray Application

- Convenient spray bottle ensures even coverage and easy application on restless pets.

Indications:

- Allergic dermatitis
- Atopic eczema
- Flea allergy dermatitis
- Lick granulomas
- Hot spots (acute moist dermatitis)
- Insect bites and minor skin irritations

HDRC

Spray Away the Itch-Happy Skin, Happy Pet.

FLUTIEASE

Fluticasone Propionate 0.05 % w/v, Mupirocin 2 % w/v Lotion

Dual Action Formula: Anti-Inflammatory + Antibacterial

- **Fluticasone** : Rapid relief from inflammation, redness, itching, and allergic flare-ups.
- **Mupirocin** : Effective against Staphylococcus spp., Streptococcus spp., and other skin pathogens.

Convenient & Hygienic Spray Delivery

- **Lotion-based spray** allows even application on **hairy or sensitive skin**.
- Non-greasy, fast-absorbing, and **minimizes cross-contamination** risk during application.

Enhances Compliance in Companion Animals

- **Stress-free application** compared to creams/ointments.
- Ideal for pets that resist touch on inflamed areas

Ideal for treating:

- Superficial bacterial infections
- Hot spots (acute moist dermatitis)
- Flea allergy dermatitis with secondary infection
- Pyoderma

FLTS

Targeted Therapy for Troubled Skin

Get Deep cleansing & deodorizing effect with...

FUNGSHIELD

Miconazole Nitrate 2% w/v+ Chlorhexidine Gluconate 5% w/v Shampoo

Antifungal • Antibacterial • Medicated Shampoo for Dogs & Cats

Miconazole Nitrate

- Broad-spectrum antifungal
- Disrupts fungal cell membrane synthesis (ergosterol inhibition)
- Effective against Malassezia, Candida, Dermatophytes

Chlorhexidine Gluconate

- Potent antiseptic & antibacterial
- Disrupts bacterial cell walls & prevents biofilm formation
- Effective against Staphylococcus, Streptococcus, E. coli

Indications

- Fungal dermatitis
- Ringworm
- Seborrheic dermatitis
- Pyoderma / bacterial skin infections
- Mixed infections
- Recurrent skin irritation, odor & greasy coat

Advantages

- Reduces itching, scaling, and skin odor
- Promotes healthy skin barrier & coat shine

FNSD

The Vet's Choice for Fungal and Bacterial Skin Conditions

PESTAWAY

Cypermethrin 1% w/v Shampoo

Kills Pests, Not Their Shine

- Tough on ticks, fleas & lice. Gentle on skin and coat.

Foams Up. Bugs Down

- Rich lather ensures deep cleansing and parasite kill.

Fast Knockdown, Long Protection

- Rapid action with residual control for days.

One Shampoo, All Parasites

- Effective against ticks, fleas, lice, mites & mange support.

Vet's Choice for Parasite Control

- Scientifically backed, clinically trusted.

Indications

- Control and prevention of ectoparasites like:
Ticks, leas, Lice, Mites
- Pruritus, Irritation, And Parasitic Dermatitis
- Ectoparasitic infestations

From Itchy to Happy - One Bath at a Time

Fast Relief in Every Spray

CARCIA

Carprofen 100mg/ml Oral Spray

- ❖ Rapid oral pain relief with fast absorption
- ❖ Easy-to-administer spray for better compliance
- ❖ Ideal for pets resistant to tablets or injections
- ❖ Accurate dosing with convenient spray format
- ❖ Helps reduce pain, inflammation, and swelling
- ❖ Gentle oral administration with quick onset action
- ❖ Convenient on-the-go pain management solution

Indications

- Osteoarthritis and arthritic joint pain
- Musculoskeletal pain and stiffness
- Post-operative pain and inflammation
- Soft tissue injuries and sprains
- Pain associated with trauma or swelling
- Supportive pain management in active and aging dogs

CRCA

From Pain to Play – Faster

Stronger Together - For Pain and Swelling

CARCIA-SP SMALL

Carprofen 25 mg, Serratiopeptidase 5 mg Tablet

Osteoarthritis & Degenerative Joint Disease

- Carprofen provides potent NSAID action to reduce joint pain and inflammation.
- Serratiopeptidase helps in reducing edema and tissue swelling.

Post-Surgical Inflammation & Pain Management

- Useful after orthopedic or soft tissue surgeries to control pain and speed up recovery.
- Serratiopeptidase enhances wound healing by reducing inflammation and breaking down dead tissue.

Musculoskeletal Injuries

- Effective in managing pain due to sprains, ligament injuries, fractures, or trauma.
- Helps pets return to normal movement faster.

Chronic Pain Conditions

- Beneficial in long-term pain management plans in aging or arthritic animals.
- Serratiopeptidase has an added benefit of anti-fibrotic and mucolytic properties.

Infections with Associated Swelling

- Serratiopeptidase helps reduce inflammatory swelling in abscesses or infected wounds (used adjunctively).

CRSP

Heal Better, Play Harder

Control the Allergies, Restore the Joy with...

OCLAVET 5.4

Oclacitinib Maleate 5.4 mg Tablet

- ▶ Fast Action – Starts working within 4 hours, with noticeable relief in 1 day.
- ▶ Effective for Allergic & Atopic Dermatitis – Controls itching, redness, skin inflammation, and hot spots.
- ▶ Steroid-Free Relief – Works like a steroid but without the side effects.
- ▶ Well Tolerated for Long-Term Use – Safer than steroids for chronic allergic skin issues.

Indications

- Canine Atopic Dermatitis
- Flea Allergy Dermatitis
- Food Allergies
- Environmental Allergies (pollen, dust, mold)
- Hot Spots, Licking, Biting, Scratching

Also Available

OCLAVET 16

Oclacitinib Maleate 16 mg
Tablet

OCVT

Say Goodbye to Scratching.

Flush the Fluid, Free the Life with

CELURO

Torsemide 10 mg Tablets

Potent Loop Diuretic with Long-Lasting Action

- 10x more potent than furosemide with a longer duration of diuretic effect
- Requires once-daily dosing in most cases – improves compliance

Superior Fluid Control in Heart Failure

- Ideal for managing pulmonary edema, ascites, and congestive heart failure (CHF) in dogs and cats

Minimal Resistance with Sustained Effect

- Effective even in furosemide-resistant cases

Better Electrolyte Balance

- Less potassium loss compared to furosemide

Indications

- Congestive Heart Failure (CHF)
- Pulmonary Edema
- Ascites
- Chronic Kidney Disease with fluid overload
- Hypertension

One Dose, Lasting Relief

Stop the Vomit, Start the Relief

ONDAPAWS DT

Ondansetron Hydrochloride 4 mg DT Tablet

Central & Peripheral Anti-Emetic Action

- Ensuring comprehensive control of vomiting.

Rapid Onset of Action

- Begins action within 30–60 minutes

Dispersible Technology for Easy Dosing

- Fast-dissolving DT format enhances compliance in small animals

Reduces Risk of Dehydration & Electrolyte Imbalance

- Aiding faster recovery and reducing the need for fluid therapy.

Indications

- Post-operative or drug-induced vomiting
- Motion sickness
- Vomiting due to gastritis, parvovirus, or renal disease
- Nausea from chemotherapy or other medications

Comfort That Dissolves in Seconds

ONDT

ONDAPAWS Oral Spray

Ondansetron 2 mg per spray

Fast & Targeted Vomit Control

- Delivering rapid relief from vomiting and nausea.

Quick Onset of Action

- Starts working within 30-60 minutes for prompt symptom resolution in acute conditions.

Spray Format = Stress-Free Dosing

- No swallowing pills-ideal for small animals, puppies, kittens, and vomiting pets.

Precise Metered Delivery

- Each spray delivers 2 mg-ensures accurate and adjustable dosing based on pet size and need.

Easy-to-Carry for On-the-Go Use

- Perfect for clinics, pet parents, and mobile vets.

Indications

- Post-operative or drug-induced vomiting
- Motion sickness
- Vomiting due to gastritis, parvovirus, or renal disease
- Nausea from chemotherapy or other medications

15ml Spray

From Gag to Go - Fast!

Stop Vomiting Before It Starts

GRANIVEST

Granisetron 1mg Tablet

Potent & Selective 5-HT₃ Antagonist

- Blocks serotonin receptors both centrally and peripherally

Fast Dissolving, Stress-Free Administration

- Mouth-dissolving tablet ideal for pets that resist oral dosing

Rapid Onset & Long-Lasting Relief

- Provides up to 24 hours of anti-emetic action in a single dose

Well-Tolerated & Safe

- Minimal sedation or GI side effects

Ideal for:

- Post-operative vomiting
- Chemotherapy-induced emesis (CIE)
- Parvoviral enteritis-related vomiting
- Motion sickness
- Renal/liver disorders with nausea/vomiting

GVST

Powerful Anti-Nausea Relief, Purr-fect for Pets

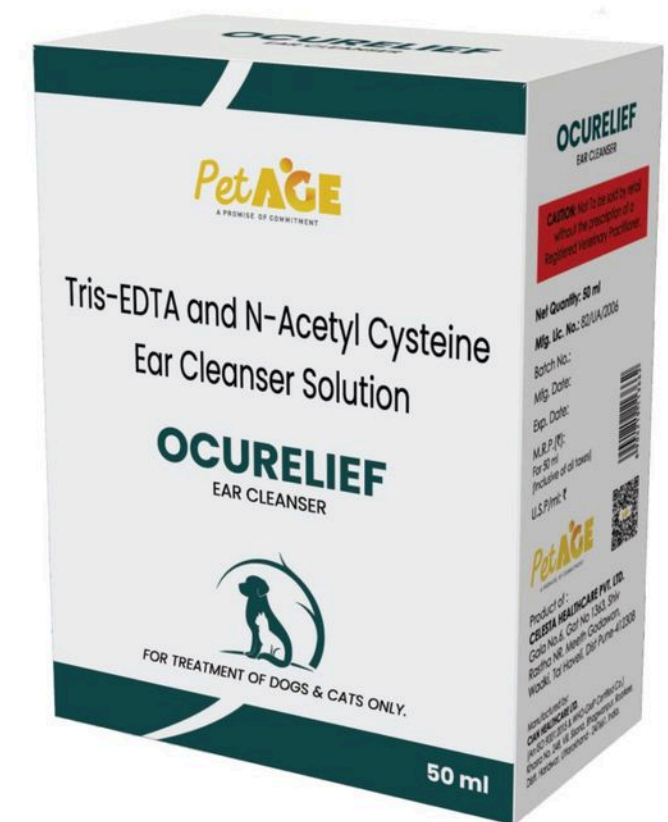

OCURELIEF

Tris (Tromethamine) Disodium EDTA 1.00% w/v, N-Acetyl Cysteine 1.35% w/v
Aqueous Base Ear Drops

- ▶ **Breaks down ear wax & debris** – keeps ears clean
- ▶ **Controls microbial growth** – supportive in ear infections
- ▶ **Reduces oxidative stress** – promotes faster healing
- ▶ **Gentle & safe** – non-irritating aqueous base

Indications

- **Otitis externa (bacterial/fungal)**
- **Excessive ear wax / discharge**
- **Foul-smelling ears**
- **Supportive ear hygiene in dogs & cats**

Trusted Veterinary Ear Care Solution

Gain Deep Action & Trusted Protection with.....

PETCLAN

Clindamycin Hydrochloride 25mg Oral Solution

Broad-Spectrum Antibiotic Support

**Bacteriostatic or bactericidal depending on concentration and pathogen type.
Excellent tissue penetration, including bone, skin, and oral tissues**

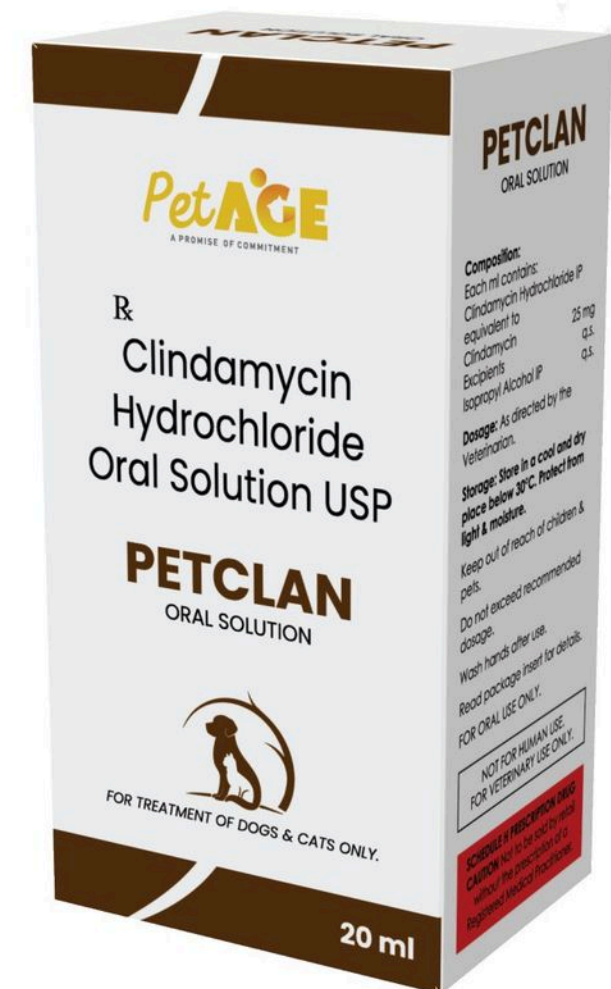

- ▶ Effective in anaerobic and gram-positive infections
- ▶ Liquid form – easier dosing in small pets
- ▶ Rapid absorption and deep tissue penetration
- ▶ Vet-trusted molecule for over 40 years

Indications

- Deep bacterial skin infections (pyoderma)
- Wound infections & abscesses
- Periodontal disease in dogs
- Osteomyelitis (bone infections)
- Toxoplasmosis in cats
- Post-surgical infection control

**For Dogs & Cats
20 ml Bottle**

Liquid Comfort in Every Drop

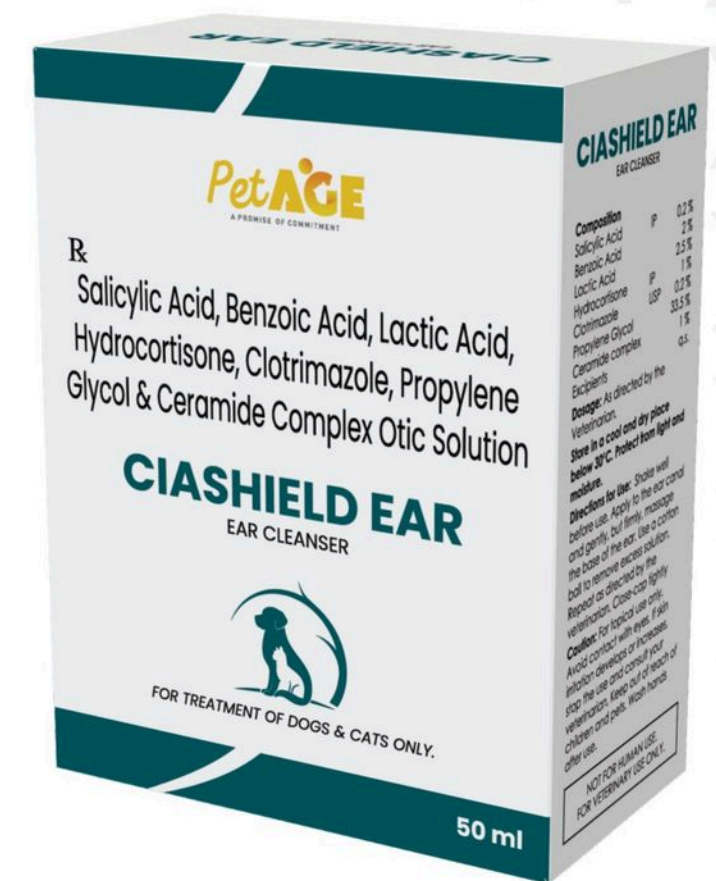

CIASHIELD EAR

Salicylic Acid 0.2%, Lactic Acid 2.5%, Propylene Glycol 33.5%, Benzoic acid 2%, Hydrocortisone 1%, Clotrimazole 0.2%, Ceramide Complex 1% Ear Drops

- ▶ Broad-spectrum antifungal & antimicrobial (Clotrimazole + Benzoic acid)
- ▶ Anti-inflammatory & anti-itch (Hydrocortisone)
- ▶ Keratolytic & cerumenolytic – dissolves ear wax, removes debris (Salicylic acid + Lactic acid)
- ▶ Soothing & barrier repair – Ceramide complex restores skin integrity
- ▶ Enhanced penetration & hydration – Propylene glycol

Indications

- Otitis externa (fungal / mixed infections)
- Ear eczema & allergic otitis
- Ear pruritus & inflammation
- Seborrheic otitis (wax, scales, flakes in ear canal)
- Secondary infections with itching & redness

One Drop, Triple Action: Antifungal Anti-itch Ear Cleanser

Breathe Easy, Scratch Less & Live Better with.

FEXOPET-M

Fexofenadine Hydrochloride 120 mg + Montelukast Sodium 10 mg Tablet

Fexofenadine Hydrochloride

- Blocks histamine-mediated allergic responses
- Non-sedating, safe for long-term use

Montelukast Sodium

- Inhibits leukotriene-mediated airway inflammation, bronchoconstriction & mucus secretion
- Complements antihistamine action → broader allergy control

Indications

- Atopic dermatitis / allergic dermatitis
- Flea-allergy dermatitis
- Seasonal allergies
- Urticaria & pruritus
- Allergic rhinitis / conjunctivitis
- Adjunct in chronic allergic airway conditions

Synergistic Action

- Histamine + Leukotriene blockade ensures better control of skin & respiratory allergies in pets

FXM

Smarter Allergy Care for Pets

FEXOPET-OD

Fexofenadine Hydrochloride 120 mg Tablet

- ▶ Second-generation H1-receptor antagonist
- ▶ Blocks histamine action at H1 receptors without crossing blood-brain barrier
- ▶ Provides allergy relief without sedation
- ▶ Rapid onset, long duration of action (once-daily dosing)

Indications

- Atopic dermatitis / allergic dermatitis
- Flea-allergy dermatitis
- Seasonal allergies
- Urticaria & pruritus
- Allergic rhinitis / conjunctivitis
- Adjunct in chronic allergic airway conditions

Advantages

- Non-sedating – unlike first-generation antihistamines (chlorpheniramine, hydroxyzine)
- Rapid relief from itching, sneezing, watery eyes, and skin irritation
- Once-daily convenience improves compliance

FXOD

Allergy Relief Without Drowsiness

PET THYRO 0.2

Levothyroxine 0.2 mg Tablets

- ▶ High Potency USP Grade Levothyroxine – ensures accurate thyroid hormone replacement
- ▶ Available in Dual Strengths (0.2 mg & 0.6 mg) for flexible dosing
- ▶ High Oral Bioavailability – reliable T4 absorption and conversion to T3
- ▶ Rapid Clinical Improvement seen within 2–4 weeks of therapy
- ▶ Veterinarian Trusted – backed by global clinical practice and references
- ▶ Safe for Long-Term Use with regular monitoring

Indications

In Dogs:

- Hypothyroidism

In Cats:

- Post-radioiodine or surgical hypothyroidism

Restore, Rebalance & Reenergize With Pet Thyro

FIROCIA-227

Firocoxib 227mg Chewable Tablet

Highly Selective COX-2 Inhibitor

- Targets inflammation without affecting COX-1 (gut & kidney protection)

Once-Daily Dosing

- 24-hour sustained pain and inflammation relief

Fast Onset of Action

- Noticeable improvement in mobility and pain within hours

Safe & Well-Tolerated

- Minimal GI, renal, and hepatic side effects when used as directed

Palatable Chewable Form

- Liver-flavoured tablet ensures better pet compliance

Indications

- Osteoarthritis & chronic joint pain
- Post-operative pain relief (orthopedic & soft tissue surgeries)
- Acute musculoskeletal conditions

Also Available

FIROCIA-57

Firocoxib 57 mg
Chewable Tablet

For Joints that Jump Back to Life

Gentle on the Gut, Powerful on Pain

ROBESTA

Robenacoxib 6 mg Tablet

- ▶ Targeted COX-2 inhibition
- ▶ Reduced GI & renal side effects
- ▶ Rapid onset & short half-life
- ▶ Excellent safety profile in long-term studies

Indications

- Osteoarthritis
- Post-operative pain
- Musculoskeletal disorders
- Acute pain relief

Demonstrated rapid absorption and good tolerability. Highly selective COX-2 inhibition.¹

RBST

Freedom to Move & Power to Play with....

FLEXIPAW

Collagen Peptide Type II 50mg, Glucosamine Sulphate Potassium Chloride 500mg, Sodium Hyaluronate 70mg, Chondroitin Sulphate Sodium 275mg Tablet

- ▶ Comprehensive joint support formulation for aging, arthritic, and large breed animals.
- ▶ Combines structure-rebuilding (Glucosamine & Chondroitin) with anti-inflammatory and lubrication (Collagen Type II & Hyaluronic Acid).
- ▶ Type II collagen improves cartilage strength and prevents further degradation.
- ▶ Sodium Hyaluronate restores synovial fluid viscosity, enhancing joint mobility.
- ▶ Highly bioavailable & vet-safe formulation.

Indications

- Osteoarthritis
- Hip and elbow dysplasia
- Post-surgical joint recovery
- Joint wear & tear in large breed dogs
- Age-related joint degeneration
- Lameness or difficulty in movement

For Paws That Never Pause.

FPW
